We are literally in the midst of winter again nothwithstanding the equinoctial is near at hand nd the sun has great power. The numerous buildings going up in different parts of our city, upon which the masons had begun to resume their work, are again deserted-for masonry with the thermometer below freezing is very unprofit. able and very unsafe work. Yet we need, or shall in May need, all the new buildings in progress; for high as are rents now, the February lettings look to still higher rents, and the array of bills on houses, usual at this season, is very small. Neither municipal mismanagement, no fideral misgovernment, nor actual war in Europe, nor rumors of war with ourselves, seem to hold great metropolis; and indeed the same may be said of our whole country. The preparations for organizing the Republicant party in this State are steadily pursued. The address adopted at the Fittsburgh Convention seems to me very well done indeed. It is a calm, historical narration of the growth of the present pro-slavery party in the United States, and exposes, by conclusive reference to facts and dates, the falsity of the pretence that Slavery was looked upon, at the outset of the government, as an interest that was to endure and to be equally protected, with Freedom. Slavery was on all hands then regarded as an exceptional case—agreat and admitted evil, with which, for the sake of greater interests, it was then deemed expedient to compromise, but which no parties to the Constitution at its adoption, looked upon as a suppose of the left that the elevated handed to numerous cases which might occur, under a different state of things, where persons might usurp the office.—He should not refer to the mode of correcting such proceedings by Que Warranto, and the Legislature has passed laws regulating such proceedings. The office of Governor is a "public civil office" within the meaning of the law, and is within the jurisdiction of the Court; this was clearly shown on a former occasion in some remarks of the Chief Justice. The Judge argued this point at some length, Further, as to the policy of interference with a high office, he held that the elevated character of the office made it still more important that it should be cardually guarded, and the rightful occupant be the proceedings. the falsest of traitors. In Supreme Court, March 19, 2 P. M. Chief Justice WILLTON said that the Court were ready to dispose of the motions for judgment in the case of the State vs. Earstow at the rela-

ouly ministerial—to add up the votes from the only ministrial—to and up for votes from the counties, and declare the result.

He referred to the cases already adjudicated by this Court of contested elections. He alluded to the argument that the Court could not take juisdiction of this case, because they would interfere

Justice Sufferproceeded to read his opinion.

It is not a question of interference between co-ordinate departments," but whether a person

have got into the office, there can be no inquiry, and no remedy but force or revolution.

This is a monstrous doctrine, and there must be some constitutional remedy, and the idea that the person who holds the office is the ultimate judge of his own rights and qualifications, is a manifest absurdity.

Though the Court must take judicial notice of who is Governor of the State, but they can only do it as to the officer de facto; when a question is raised of his legal right, their knowledge is suspended till the Governor de jure is ascertained.

The several Departments are not independent of each other, but dependent upon each other in numerous cases cited.

The proceeding by Quo Warranto does not remove the officer at all, but only enquires by law and openly, who is the legal officer.

DAMLE S. DICKINSON, " It was believed that, by an early and united deam from the state, as far as the Relator was effort on the part of the Associations mentioned, concerned. On the part of the State, he now came in, and demanded that a full investigation should ensue. He should deny that the returns from any one county were sufficient to establish the right of the Relator. He wished to constitute a course of at least twelve captabilish the right of the Relator. He wished to and so many were the d'sappointments and unavoidable faintes after acceptance and engage ment, that for most of the loctures other men had to be selected and in son elicases in academis. had to be burniedly filled after the commencement of the course. In only one case however

during the course was there a failure of a lecture some instances there was an unavoidable delay of Aside from the joint arrangement above monvoned, your Committee invited, on their own behalf, Theodore Parker and John G. Saxe. Mr

Parker was compelled to decline, and sickness

prevented Mr. Saxe from fulfilling his engage-Your Committee were able during the winter, o procure, on their individual responsibility, one lecture from John B. Gough, which was well attended, and the nett proceeds of which were passed into the treasury of the Association. In the month of October last your Committee learned that the arrangement by which it was apposed that Henry Ward Beecher would give one lecture of the regular course, had been that he could not bring the cripinal papers into Guert, as copies were made legal evidence.

C. J. Waltron said that the Secretary could keep the records in his possession, and produce secured Mr. Beecher as a lecturer for the season, a somewhat larger sum than had been at

> ed to a full house on the evening of October In the month of November arrangem rere perfected for a conrae of twelve lectures with a prospect of several additional lecture after the close of the regular course, and advertisement was made accordingly. Your Committee believed themselves and the Association most fortunate in securing a gentleman so well know: and of such acknowledged eminence as a public speaker as Wendell Phillips, to open the course. They could not doubt that his fame and his elequence would secure a crowded house, and a andsome sum to the treasury. In this your Committee were astonished to find themselves mistaken, and do not now see that there was good reason to anticipate disappointment in their

CHARTER BLECTION.—The annual Charter Election for city officers comes off on Tuesday week, being the lss day of April. The following officers are to be chosen: A Mayor, Comprisiter, Treasurer, Marshall, Attorneys and for each of the Seven Wards, one Alderman for two years, two Alderman for one, a Justice of the Peace, As REMOY, Constable and Kaliroad Commissioner. It is gen erally understood that Major Oxosa is a candidate for reelection, so is comptroller Enwirds, Marshall O'Bars' and Autorocy Foors. The present Transmer, Mr. Kuten, a trusty and excellent officer, declines the re election which he might have for the asking. We do not bear of any serious Mayor, depends upon whether he makes the turne of Bar-Sasyor, depends agon when in manner is a legion of caudidates for Marshall, the present incumbent, and Mesers.

Franc Davilis, Jose Mizchell, Ches. C. Mayes, &c., &c. We notice, too, any number of inciplent Aidermen. The Aidermen, it is true, receive no pay, but singular good fortune appears to attend the possessors of civic anthority and honors. We can recall to mind some half-a-doz-n who, receiving no pay or perguisites, and forbidden to become interested in contracts, have nevertheless within a few years, and by some mysterious process, feathered their ness handsomely. No wonder that ostalders are soutous to learn the secret. Hence the rush for Aldermanic nom. nations. So much for "the party" arrangements. What the People propose to do has not yet transpired.

Harrie For Arm. !- This popular Magarine is early in the field. The April number is a sparking one as befits the month. It opens with an illustrated in emoof General Perman. Then follows a chapter, with illustra-tions, on "Madeira, Port and Sherry" Next, "the Cin-amon Islands" and "the Resurrection Flower," noth illu-trated. Next, a variety of well-selected miscellany, crowned by three more chapters of "Little Dorritt." We have, too the usual monthly record, editor's table. literary notices, and a series of comic illustrations for "All Fools-Day."; Harper is for sale at ARNOLDS, and at Wilson's, East Water

To the scholar, as to the general reader, these volumes are rich in tastruc-tion and replate with interest. There to a fuscination about Macaulay's style which seems inexhaustible.

CRAZY .-- A man named Reynolds was taken to the jail yesterday about noon, perfectly crasy on the subpect of religion. He was confined in one of the cells, raying mad by spells, and shouting out passages of scripture. He has frequently been arrested for drunkenness,

Washington, December, 27, 1842.

Daia Sin:—I have examined with much care and intercit your Brick Moulder and Temperer, on Capital Hill, in this city, and theerfully bear testimony to its excellence. I consider its simplicity of construction, its respicity of execution, and its davability, to be apparent to every observer, and I can say that the experience of twenty-five years in the manufacture of bricks, has given use good opportunities of judging closely in this matter. I think your machine is univisalled as a Brick Machine in the United States.

Especifally, yours, E. HAYDEN Practical Brick-Maker, at Palmyra, N. Y. H. SANDS, Keq.

Washington, November 22, 1858.
Sec.—I this day had the pleasure of witnessing the operation of Messus, Sands & Cammidge machine for making brick, and must say that it performed much better than I expected. I can, therefore, recomend it to the public as a valuable labor-saving machine, selt tempers the clay and moulds the briefs at the same time.

WM. P. ELLIOTT, Architect and Engineer.

To. H. Sames, Eq. WASHINGTON, November 28, 1853.

I have witnessed the operation of Messra Sansia & Cummings' Patent Brick Machine, and consider it unequalised in simplicity, and in the perfection of its results, by any machine of any class that has come under my observation CHAS, EVERETT, late of the Patent Office.

Wassinorom, D. C., November 23, 1983.

It is with much pleasure that I are prepared to say, that having winessed the operation of making brick, by a new patented machine, by Sands & Oumsings, it by far exceeds my expectations. It is very simple in its construction, and sure in its operation. From my experience as a practical machinist and model maker, (having constructed several models for that purpose, I believe it to be far appeared to anything I have ever seen. It can be worked with certainty and great facility, by the most ordinary in-borer, while it tempers the clay and moulds the brick at the same time. I would especially recommend it to all persons engaged in the brick basiness.

J. S. WOODBUIFF.

GROBGETOWS, D. C., November 25, 1836.

Having wincased the exhibition of Sanda & Cummings Brick Machine, on Capitol Hill, inst week, I hereby certify that its work was very satisfactory and simple, thereby at lowing it to be used by handstotally unaccustomed to it. was much pleased with the machine in every respect.

ROBERTP. DODGE.

WASHIGTON, D. O., November 28, 1538: H. Santo, Eng. — Deer Sity: — I have this day Witnessed the operation of Sands & Cummings? Fastent First Mosking Machine, and am fully satisfied that it is not equalled by any machine for speed, or in the corrections of the work; and can threefore cheerfully and confidently recommend it to any person wishing to purchase a perfect machine. Fractical Brick-maker, Wyoming, Syracuse Co., Fa.

[Mr. R. Strik excertmented with a dry clay brick machine, at a cost of several thousand dollars, which he act saids, and adopted in place thereof one of Sands & Cammings.] Washington, March 21, 1852. To the Managers of the Metropolitica Mechanics' Insti-To the Managers of the Mets apolitien Mechanics' Insti-tute:
Guerrassar: I am under the impression that the Com-mittee on Clast No. 4, in which the wachine deposited by Saada & Cummings—a Brick-making machine; was em-braced—recommended it as being the best machine offered, and therefore entitled to the highest award. As one of that Committee, I am of the opinion that it is the bast ma-chine now in use in this country for making bricks of temperate day. I have seen the sunchme in use, of full size, and the quentity and quality or the bricks it predu-ess are better than any others that have come to my knowl-edge. I am engaged in the brick business, and have searched much in all our principal cities for the anost ap-proved machines, and most say, that this machine is the vary best I have seen or based of I, therefore, secun-iseed the smachine as morthy of the highest award that you can give to any machine at the Embilion.

BANCEL BYLINGTON.

This certifies that I have been in the brick business, extensively, for seventeen years, and am employing twentytwo hands, and have the day witnessed the speration, is
my pard, of Messry, Sunds & Cummings' Faisest Machine,
The Machine tenspers the mud and makes their as the
same time. It is simple in it construction and nogilable to get out of each; and can be worked with common
hopers, and makes good bricks, and is capable of modulaing from 14,000 to 18,000 per day. I am well sanished with
the working of the machine. I have worked different
itinds and take great pleasure in saying that the is the
best I have ever seen, and in recommending the same to
the public as being worthy their attention.

JONN ARCHIMALD.

Cammings, August 27, 1858.

This is to certify, that I have been engaged in making bricks about twenty years, and have seen and used different kinds of improved brick machines, and am now using them. I have this day witnessed the operation of Sands and Cammings! Patent Brick Machine, as Edmond Signed brick-yard, in Cambridge, Mass, and, in my opiotos, it is most simple in its construction and, at the same time possesse very requisite for durability; to the dwist, that mon laboring men can easily do at the work with the machine that is required of practical brick-makers. The machine tampers the clay by horse power, and, as the same time is capable of mostifing 14, 900 to 15,900 good bricks per day; and that it is best machine new in operation, and I take much pleasure in recommending it to all interested.

S. M. COFRAN, Petnass street.

E. Sanne-DearSir:—This is to certify, that the Machanles Brick Manufacturing Company have had to use to
their yards during the past senson senso of your Patent

I have dieted and taken medicinesi enough to float a pretty large bont, but they did not no good. I have token your medicines one year, and am new able to work and every with out an ache or a pain, and any neighbors say I am the sprightliest man on the Island.

The Rev. J. S. Swan, of New, London, says, I have used the Syrup and Cerate in my family for more than a year and I consider it completely adeques as southen the high reputation that is claimed for it. I have seen it used in number of cases for Sait Rheum and Eynipician, with eater success.

As Beth Prishery, of Taunton, Mass., what the medinumber of cases for Sait Eheum and Brynipelas, with en five success, where the cases of the success, and the supplier of Tanonton, Mass., what the medicines will do; ask William Barber, of Three Mile Bay, Jer Co., N. Y., what the syrup has done for him; ask G. F. & W. H. Boynton, of Perkinsville, V.; ask F. L. Kens, of Chicago, Ills ask: Hartha Cottle, of Martha's Vineyard, Mass, ask Wm F. Kealhes, or Wm F. Benjamin, Esqu., of New Loudon; and Dr. H. M. Murlock; of Peleski, M. Y. ask J. C. Emith, of Brooklyn N. T., who was cared of Scrotlas, after losing hisley by the discrese, and suffering for years, has been perfectly outed by the use of the Bryon & Crart; ask Ourlis Eurrough, of Sheby, N. T., who has been cured of a severe case of Sait Massum, ask Chas. Akin of Hume, N. Y., what the Bryon and Oerate will do for sor large; and Winslow and fifther, Merchants, Virgil, M. T., who has been cured of a severe case of Sait Massum, ask Chas. Akin of Hume, N. Y., what the Bryon and Oerate will do for sor large; and Winslow and Braffer, Merchants, Virgil, M. T., who has been cured to a severe force. In a word, sak avery bedy who has ever tried these wonderful needlenes, and the answer will be the same—TRET OURE.
